

The Creative Spark

In 2008 decorative matches will emerge as bright candle accents.

All cylinder designs can be viewed at: www.finespark.com

Matchbox cylinders are packaged in sets of three. Trios retail for ~\$8.

In the past, finding an attractive, decorative package of matches to light or display beside a candle was difficult. And, while lighters invoke some landfill guilt, there were few other flame making options with any style or pizzazz. Now ... candles have met their match.

Fine Spark Match Co. offers a selection of decorative cylinder matchboxes in a range of contemporary designs and colors. The two-inch cylinders sparkle with original designs and fresh appeal. Each cylinder contains 24-25 matchsticks, has a bottom striker and clear top revealing the colorful matchtips inside. Designs are mixed and packaged in sets of three. The trios have names like Bohemian Lux and Mod Lounge. Funky messages like 'spark your enlightenment' are printed inside the labels. The Cylinder Collection is the first in a line of new match products from Fine Spark. Fine Spark matches are sold alongside candles in retailers of fine paperie, gifts and home decor accessories.
